El Dorado Boulevard Reconstruction – Design Input

Thomas Artz | Acting Assistant Director | November 30, 2017

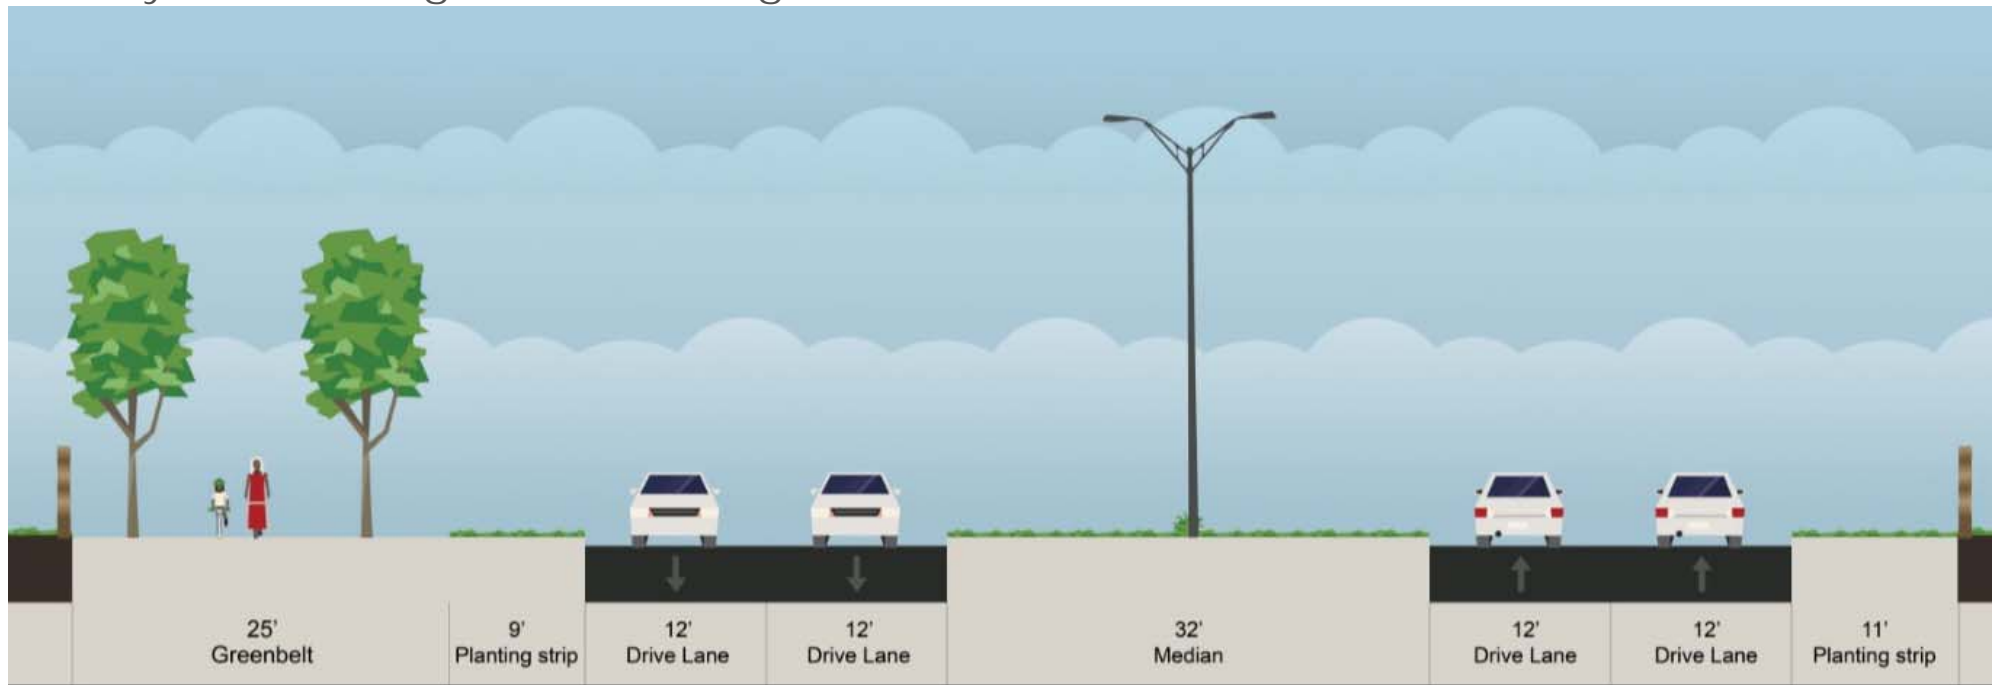

El Dorado Boulevard Reconstruction Project Overview

- CIP No. N-100035
- Project in partnership with Harris County Precinct 2
- **Improvements will include:**
 - Expansion of roadway to four lanes with center median and bridge over Horsepen Bayou
 - Concrete Pavement
 - Reconfiguring of necessary electrical poles to center of median

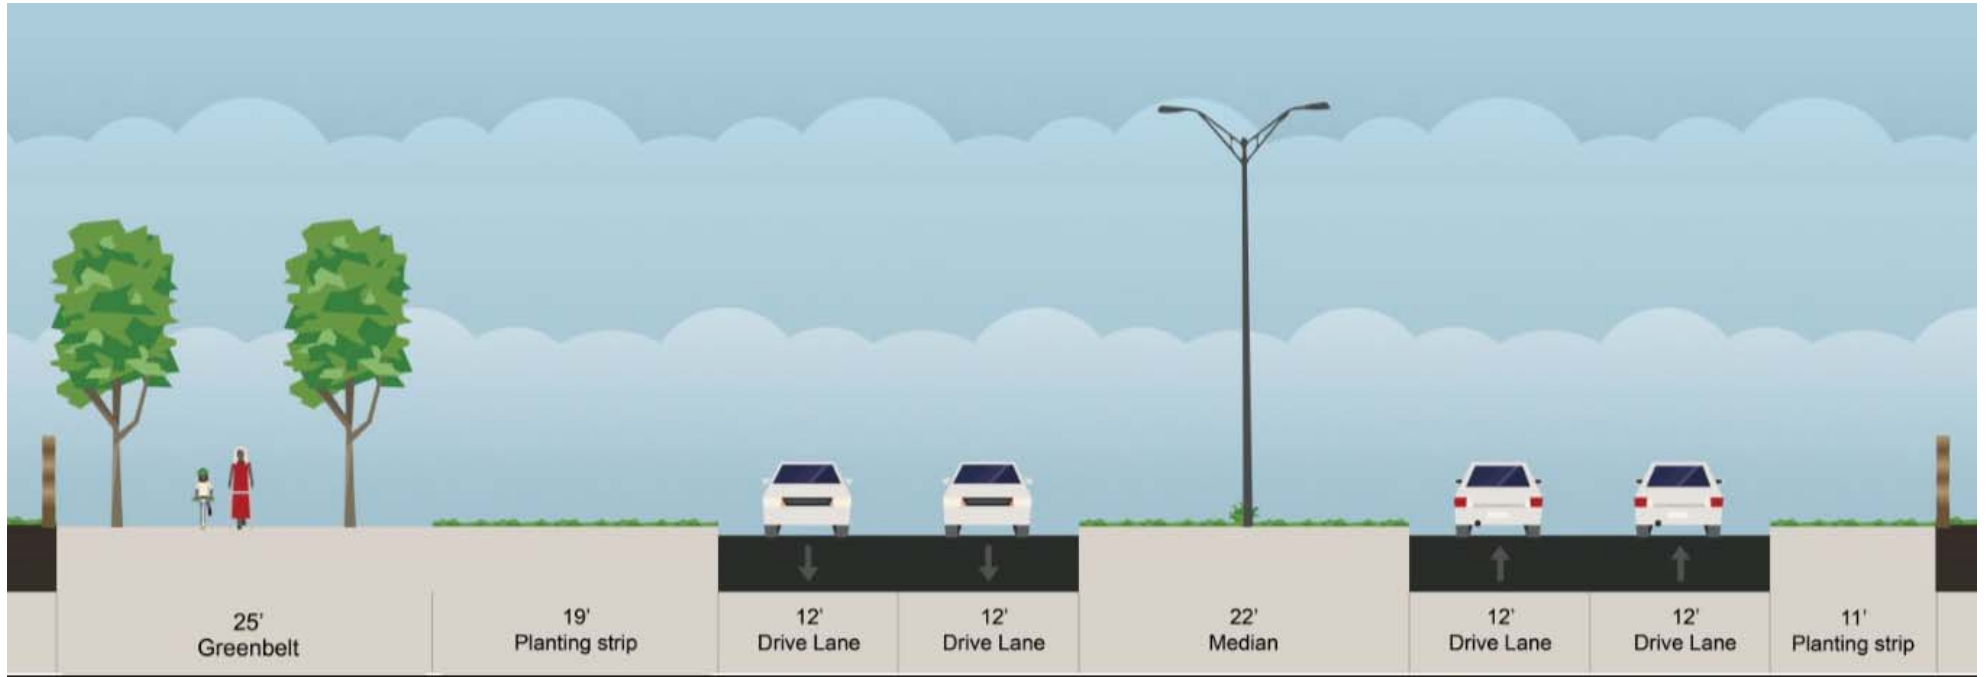

El Dorado Boulevard Reconstruction Option 1 (32-foot median)

- Cost of pole relocation minimized
- May result in mitigation of some greenbelt trees

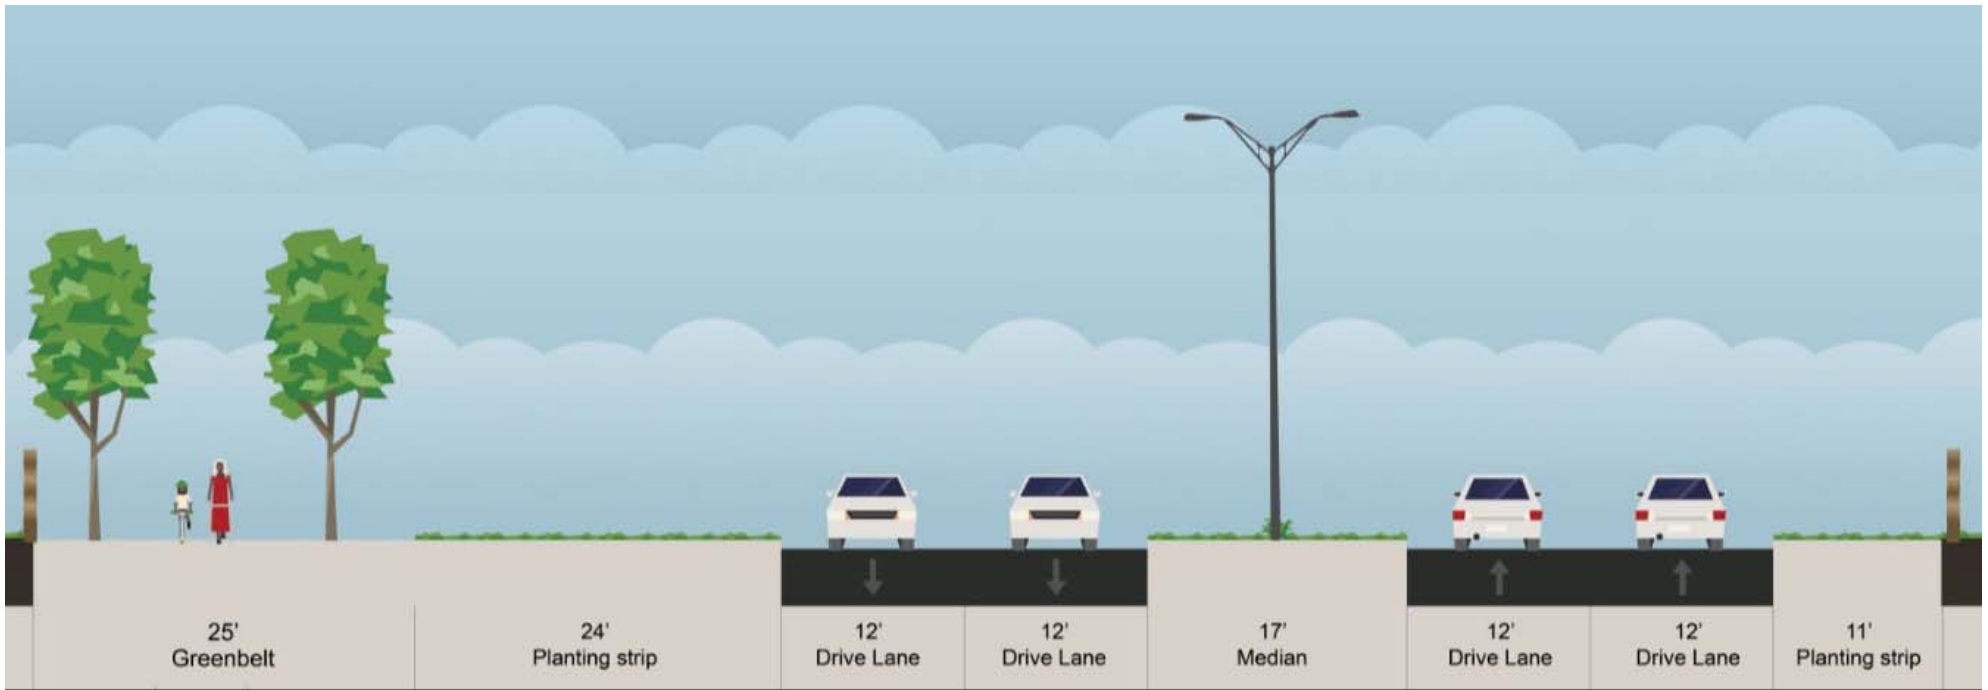

El Dorado Boulevard Reconstruction Option 2 (22-foot median) – Preferred Alternative

- Cost of pole relocation increases
- Greenbelt tree mitigation may occur to lesser extent

El Dorado Boulevard Reconstruction Option 3 (17-foot median)

- Cost of pole relocation greatly increases
- Greenbelt tree mitigation may occur to lesser extent
