

HILLCROFT RECONSTRUCTION PROJECT

CIP No. N-100012

This Capital Improvement Plan project is on Hillcroft between Beechnut and Bissonnet. It has been funded and starting design in 2016 with construction planned for late 2018. Proposed reconstruction in this segment includes expansion from four to six lanes between Edith and Bissonnet Streets, 6-foot sidewalks and intersection improvements at Bissonnet and Beechnut. Underground storm sewer, sanitary and water lines will be replaced as necessary. Limited right-of-way acquisition may be needed to improve turning movement at Bissonnet and Beechnut intersections.

BISSONNET AT HILLCROFT

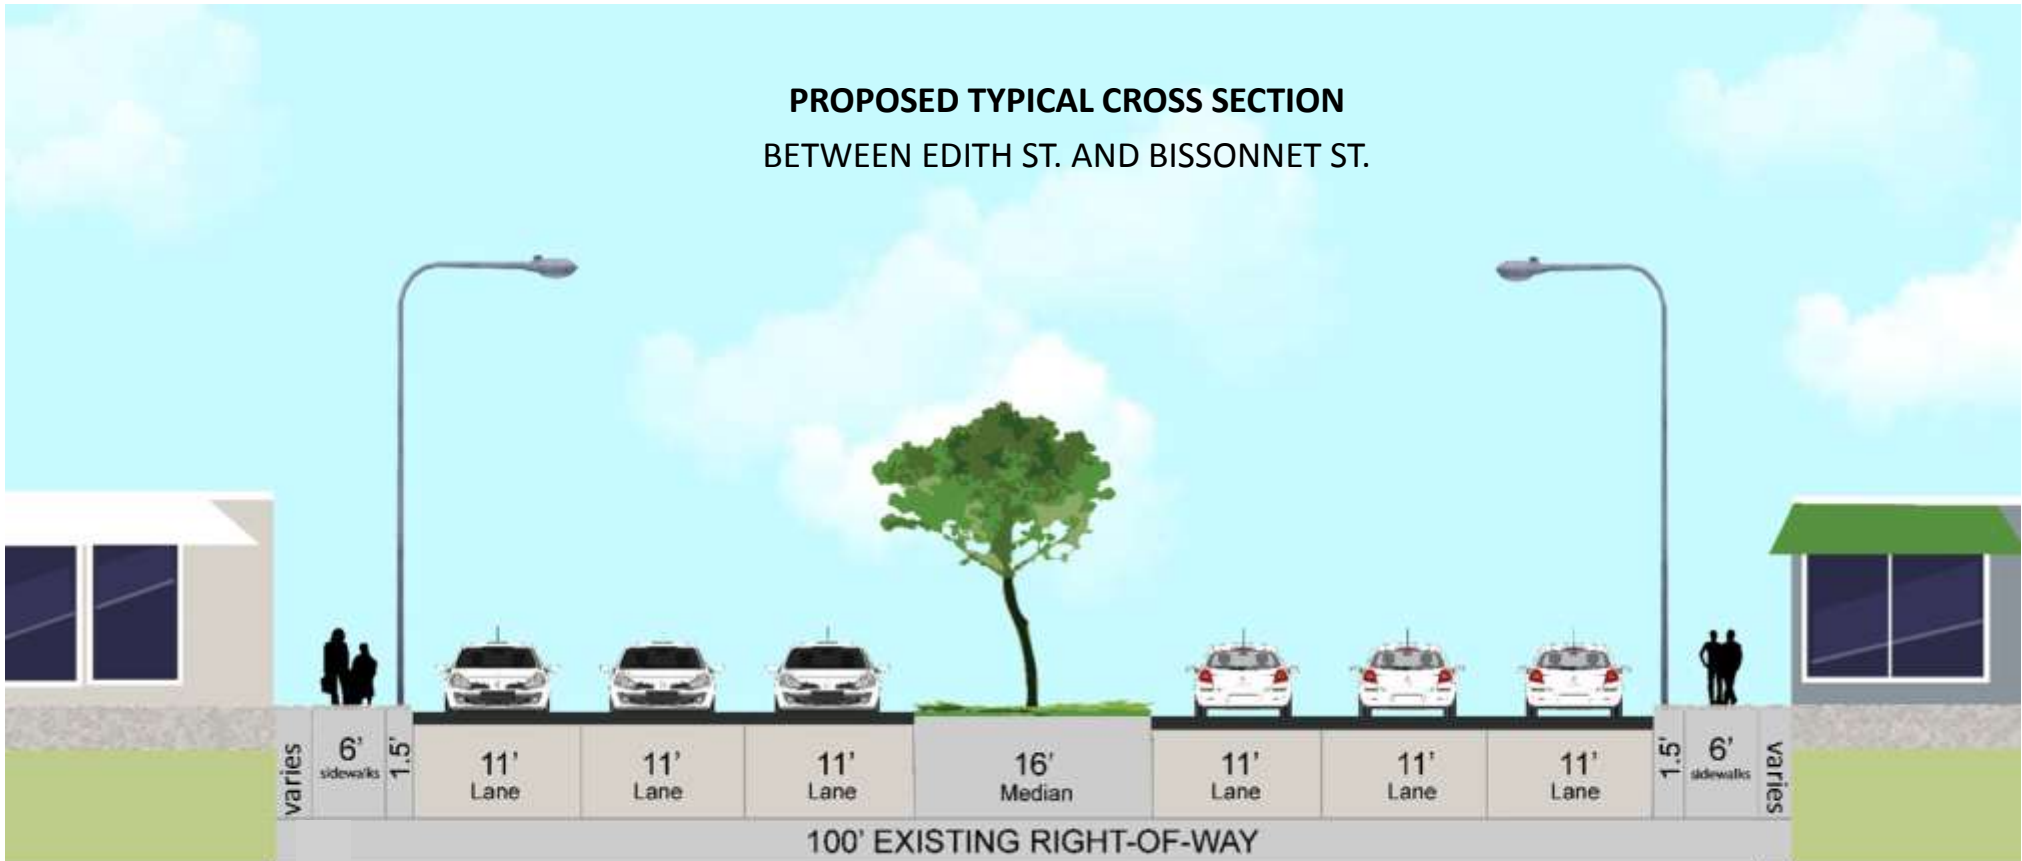

BEECHNUT AT HILLCROFT

HILLCROFT RECONSTRUCTION PROJECT

CIP No. N-100012

PROPOSED TYPICAL CROSS SECTION BETWEEN EDITH ST. AND BISSONNET ST.

Project will be built to at least meet the design standard minimum of 6 foot sidewalk. Where possible, a 7-8 foot sidewalk will be accommodated.

Providing input on or before August 22, 2016 allows us to stay on schedule

ABOUT REBUILD HOUSTON: Approved by voters in 2010, ReBuild Houston is the City's innovative program managed by the Department of Public Works & Engineering. Its mission is simple — to reduce flooding and improve mobility and quality of life throughout the city. Its fiscally responsible approach (pay-as-you-go) is to pay off old debt each year and use the remaining funds to reconstruct our streets and drainage. To make the most out of available revenue, reconstructing streets and drainage systems are completed in areas of the city that have the greatest need, and where reconstructing the old infrastructure will have the greatest benefit to the community. Rebuild Houston makes the most of every dollar spent to build better streets, better drainage and a better future.
