### NOTES:

- 1) PWE is not proposing to add additional need areas to the list for FY17 efforts. PWE is currently in the process of obtaining new Pavement Condition data citywide. This data is not currently available, but will be available before prioritization efforts for FY18.
- 2) Need Areas that were on the FY21-25 Local Street Need Area list that were not designated for pre-engineering and are not on this FY22-26 proposed list were either pre-engineered due to adjacent need areas, pre-engineered as a Council Member identified priority or were able to be addressed through a programmatic rehabilitation program.
