

# SOUTH LOCKWOOD RECONSTRUCTION

REBUILD HOUSTON

## ADDRESSING SAFETY, DRAINAGE AND MOBILITY

The project will improve approximately 0.8 miles of South Lockwood Drive between Harrisburg Boulevard and Crites Street. The improvements include new pavement, improved intersections, and upgraded storm drainage, water & sewer infrastructure.

## SOUTH LOCKWOOD RECONSTRUCTION

### SOUTH LOCKWOOD AND CANAL INTERSECTION

An improved roadway configuration at the intersection of South Lockwood and Canal will add left-turn bays with adequate storage lengths.

### SOUTH LOCKWOOD AND NAVIGATION INTERSECTION

A new roadway configuration at the intersection of South Lockwood and Navigation will define bicycle lanes on Navigation, provide right-turn bays, and maintain appropriate left-turn storage lengths.

## SOUTH LOCKWOOD NORTH OF NAVIGATION

A new roadway configuration north of Navigation will maintain four-lane cross section. New median configuration will provide improved access management. This will improve through traffic operation on South Lockwood. Existing parking spaces in front of Harris County building will be defined clearly.

### ABOUT REBUILD HOUSTON

Approved by voters in 2010, ReBuild Houston is the City's innovative program managed by the Department of Public Works & Engineering. Its mission is simple — to reduce flooding and improve mobility and quality of life throughout the city. Its fiscally responsible approach (pay-as-you-go) is to pay off old debt each year and use the remaining funds to reconstruct our streets and drainage. To make the most out of available revenue, reconstructing streets and drainage systems are completed in areas of the city that have the greatest need, and where reconstructing the old infrastructure will have the greatest benefit to the community. Rebuild Houston makes the most of every dollar spent to build better streets, better drainage and a better future. **FOR MORE INFORMATION, GO TO [REBUILDHOUSTON.ORG](http://REBUILDHOUSTON.ORG)**
